

PROGRESSION TO THE PEOPLE

The AMP represents a new paradigm in C-kite design. It is a progressive yet user-friendly Freestyle and Park-style kite, offering amateur to pro the response, feedback and control needed to take their riding to the next level.

The AMP has been developed to grow with you; no longer are the progressive kites for just the Professionals! It is both predictable and adaptable for hooked and un-hooked riding. From your first unhooked tricks, boosting kite loops, or styling out advanced park and freestyle manoeuvres, the AMP will keep you in control with the highest level of feedback, predictable turning speed and a similar feeling precisely tuned across all sizes. It is ultra smooth to fly and provides inspirational confidence to go for it!

USER-FRIENDLY PROGRESSIVE KITE
